

6CCS3ML1 Machine Learning, CW1 Marksheet Version 1.5

Student Name:

Total marks: (out of 100)

100 marks for this coursework equate to 10% of the total marks for the module.

Functionality

- Code runs (i.e. doesn't crash on startup) (20 marks)

- Code uses a classifier (could be from a library) (10 marks)

- Code for a classifier included (i.e. doesn't just use a library) (20 marks)

- Code for sophisticated classifiers included (i.e. students have created sophisticated classifiers, not just called one from the library.) (20 marks)

- Runs on a different training set (10 marks)

Form

- Good programming style (10 marks)

- Well commented (10 marks)
